# West Coast Waste Minimisation Support for Businesses

## West Coast Waste Minimisation Support for Businesses

This directory has been compiled to assist those wanting to reduce the cost of waste disposal and reduce the amount of resources going to landfill. It contains a list of businesses and organisations providing services for and/or advice to businesses on reuse, recycling, resource efficiency and environmental issues.

Although this is a business directory, the symbol **H** indicates the acceptance of material from both businesses and households. For the West Coast many of the business involved in recycling are in the Canterbury region. Listed below are those that do have collections on the West Coast or will come over on request plus a few extra with drop off facilities for those who frequently go to Christchurch or may like to organize joint collections and transport options.

*While every care is taken in the compilation of this directory, West Coast Working Waste Group cannot take responsibility for the accuracy of information supplied to it or for variations, which have subsequently occurred.*

### Business Support

#### Buy It Back Guide - recycled products

The Zero Waste Trust has a **Buy it Back Guide** that lists products made from recycled materials in New Zealand. Purchasing products made from recycled materials closes the recycling loop and supports the recycling market Web site: [www.zerowaste.co.nz](http://www.zerowaste.co.nz)
